<u>Semi-Annual Report of the Fiscal Monitor</u> to <u>the Wyandanch Union Free School Dis</u>trict

<u>July 1 – December 312021</u>

Albert T. Chase, NYS Fiscal Monitor March 2022

Introduction / Executive Summary

The November 2020 Fiscal Improvement Plan for the Wyandanch UFSD ("the District") contained recommendations for actions to be undertaken District to enable it to develop operational and fiscal efficiencies can report that the vast majority therecommendations made at that time have been enacted in full, while others have been partially enacted and are on their way to completion.

It should be noted that many of the recommendations made in th**suplan**itted to the Commissioner in December 2020 were not-**time** actions but are continuing activities where the recommensations need to become integral components bistrict operations.

In November 2021, an update to the Fiscal Improvement Plan was completed and presented to the Board of Education (the Board") and the Wyandanch community at a public hearing. That update contained a total of seven (7) additional recommendations, which are addressed in a subsequent section of this document.

The Administration continue becooperative in enacting c

-The Wyandanch UFSD undertook its annual Tax Anticipation Note borrowing for the 2021–22 school year. Because the Districted the last two years with a surplus, borrowing needs decreased from \$15 million to \$ million. A positive change in theis Dirict's credit rating by Standard & Poor's, precipitated by better overall management positive cash flow; resulted in a savings in borrowing costs. The upgrade in the Districted it rating, if maintained or further upgraded, will be extremely helpful when the possible consideration of a capital improvement bond is put forth.

- The Wyardanch UFSD continues to plan for the ldregm improvement of its facilities. It is hoped that these initiatives will result in a bond proposition being voted on within the next two years.

-A new Director of Facilities has been hired. Sistartingin October, the individual has shown great initiative and has made meaningful strides in the maintenance of school factilities.

it difficult for the District to operate in an effective and efficient man**meth** the hiring of key staff being delayedContinued training will only be effective if individuBbard members are determined to utilize the best practices to which training has exposed**TtherNew** York State School Boards Association (NYSSBA) other qualified organizationshould continue to be utilized asprimary resources

-Continue to ensure that backup personnel are up-to-date with current functions and ready to step in when called upon.

The staffing in the Business Office is lean when compared to other comparatized yschool districts. While I have been assured that backup personnel will be in a position to assume the duties of any staff member whooay be out for a period of time, emain concerned that this processwould not be problementer and the spoken extensively with the new schess Administrator about this, we are determined to work together to ensure that operations can continue in the temporary absence of key personnel.

-Obtain payment schedules for each of its PILOT payments to allow the District to accurately project its income from this source.

The Wyandanch UFSD has made significant strides in obtaining necessary aggregateits at PILOT payment schedule. I would like to see the Business Office obtain the individual payment schedule foeach PILOT so as to be able to determine which properties will be returning to the tax rolls yearly I realize that obtaining this information may largely depend on the extensive cooperation of the Towof Babylon assessment office.

-Continue the services of the Internal Auditor to assist the Business Office in achieving greater operational efficiency.

The Board, Superintendent and Baness Administrator have met with the internal auditors on at least two occasion secently However, it does not appear that the internal auditors have been actively working in the District. No reports were sued by the internal auditors concerning 2020–21 school year perations The auditors have stated that they anticipate 'doubling up' on audit activities to the District during the second half of the 2021–22 school year.

-Submit an updated five-year financial plan to the Monitor by September 1 each year. The financial plan will be balanced as to revenues and expenditures. The plan shall include statements of all estimated revenues and expenditures, including a cash flow plan.

It is agreed that the District should work in collaboration with Notion to update the financial plan. However, I have realized that Septembers' not a realistic date because the independent auditorsgenerally do not complete their work by that time, and so the final numbers serve as the foundation of future year financial planning are another area to complete this work by September 1. November 1 is a more realistic date for any arputates, given the turnover in the leadership of the Business Office in 2021. A loange plan should be completed by November 2022, covering the 1. ()Tj E (,i)-2 (n)-10 (g t)-2 (he)dBr-5.1 1J -3y.t4 (n t)92r

My previous Sentainnual Report, covering the period of January 1 – June 30, 2021, was submitted to the Board in November 2021, and after a publiciting was finalized and submitted to Commission Rosaon December 6, 2021. Given the abbreviated timeframe between then and now, I did not realistically expect substantial progress on any of my additional recommendations contained in that report to have

Upon approval of the annual update to the improvement plan by the Commissioner, the Board of Education and Administration shall make every reasonable effort (e.g., bargaining in good faith, providing timely responses to requests for information, avoiding canceling scheduled bargaining sessions without good cause, maintaining open lines of communication) to settle outstanding employee contract negotiations in the 2021-22 school year in order to ensure accurate budgets for the 2022-23 fiscal year and beyond.

District labor counsel is in active negotiations with several of **tist**rict's bargaining units. Ideally, begotiations with the Wyandanch Teachers Association (WWA) se contract expires in June 2022, should commence by eaplying 2022.

The Board shall develop a policy under which a series of objective criteria are established to guide the Superintendent in determining whether a prospective employee is to be recommended to the Board for approval. Such policy shall have the goal of the Board rejecting recommended candidates only based upon cause. (Cause shall be defined as withholding approval for reason connected to the failure of the candidate to meet the qualifications of the position, conflicts of interest, or reasons connected to the candidate's moral character that would preclude him or her from working in a public school setting). Personal or subjective considerations shall not be the basis for the Board's refusal to approve recommended candidates for positions within the district.

No action or Board discussion has taken plate need for clear guidelines is very apparent.

By January 31, 2022, the Board of Education shall set forth specific dates by which the following actions related to facility improvements shall take place:

- By mm/dd/yyyy, the Board shall appoint an architect to make a determination of possible capital projects.
- By mm/dd/yyyy, the Facilities Committee shall submit to the Board a long-term capital improvement plan.
- By mm/dd/yyyy, the Board shall approve the plans as submitted or as amended by the Board.
- By mm/dd/yyyy, if the Board has not identified other funds to implement the plan, the District shall set a date to place a bond issue before the voters.
- By mm/dd/yyyy, the District shall implement the capital improvement plan. The dates set forth shall be acceptable to the Fiscal Monitor.

The timeline stated for this activity were not within the timeframe of this report. However, a meeting of the Facilities Committee did take place at the end of January 2022, and a Request For Proposal (RFP) for architerral services has been distributed to qualified firms.

Focus for the Remainder of the 2021–22 School Year

There are a number of individual areas that should be focused on in an effort to create a model operation. Among these are

- New Leadership: The new Business Administrator is providing qualified and experienced leadership. I expect that day-day operational matters will now be handled both timely and professionally The Business Administrator has shared a number of ideas aimed at increasing operational efficiency as well as possible revenue increases
- Better integration of Business Office activities with Human Resoultidesse offices interact in terms of position control and budgeting, as well aspective for the roles. There exits a need to coordinate processes and procedures and to define the roles and responsibilities of each office in regard to their intersecting activities. To be made in the assignment of staff to specific budget/function areas as a means of achieving greater fiscal accuracy. Much progress was made last year, but a preliminary analysis shows that work remains to be define exampleup to now, oding corrections were made through the Fiscal Monitor, but a system needs to be put in plaebywther Business Administrator has final signiff prior to a new hire being assigned to a particular budget code. This is a process that will require a thorough review each year.
- Long-term planning for capital improvementshere is a real need for both upgraded and new facilities, and the planning must come up to speeinglocalendar year 2022. The District building aid ratio should provide a generous level of financial partnership with the State in this endeavoranticipate working closely with the administration and school board to advance the planning necessary prior to proposing a referendum
- Financial Plan Update: There is a need to update the District'steongfinancial plan to recognize changes that occurred in 2021–22 school year budget, as well as to incorporate the proposed 2022–23 budget into that planning. Due to changing conditions, the plan will need to be substantively updated at least annually to ensure its continued relevance. The updated annual report to be submitted to the plan November will be reflective of those changes. The eventual end of ARP and its effects on future budgets will need to be factoreighto the plan.
- The use of funding provide through the American Rescue Plan (ARP) and the Coronavirus Response and Relief Supplemental Appropriations Act (CRMSA) are to be closely monitored to assure its appropriate nusceeting the needs of the Wyandanch students will be particularly important to ensure that the use of these funds do not create longerm or unsustainable obligations on the part of the part of the transmission.
- The Fiscal Monitor will continue to work with theorem to provide fiscal training that may be requested in order to ensure that financial decisions are made using a complete
