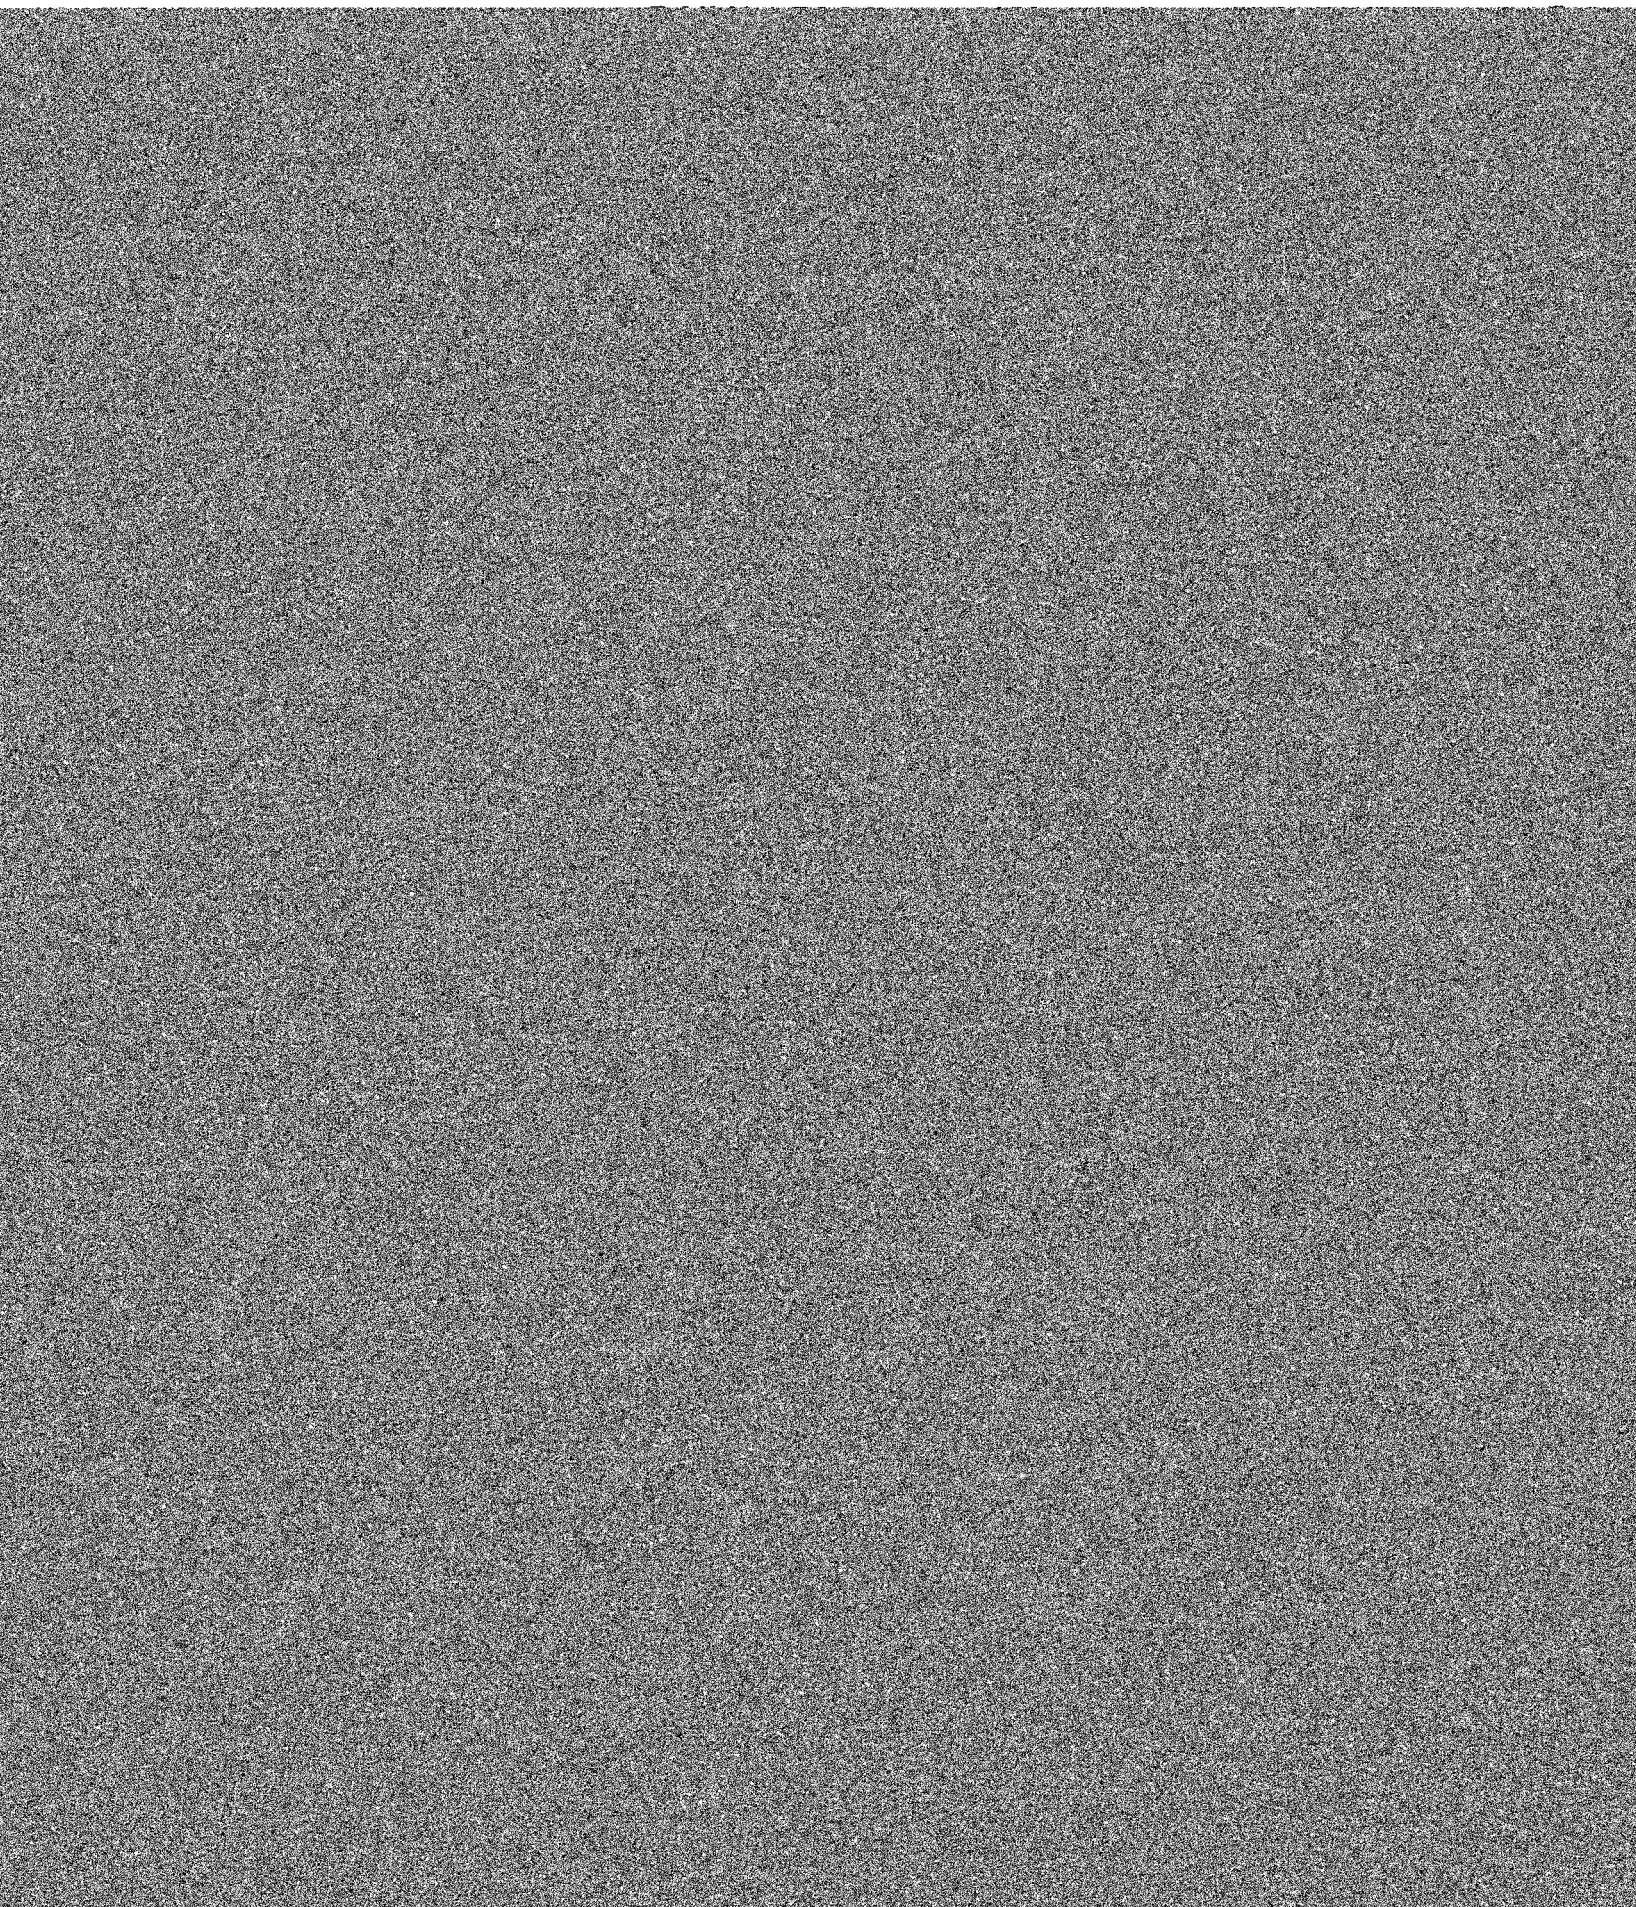
LEARNING ACTIVITY BRIEF

DAILY LESSON PLAN

Topic

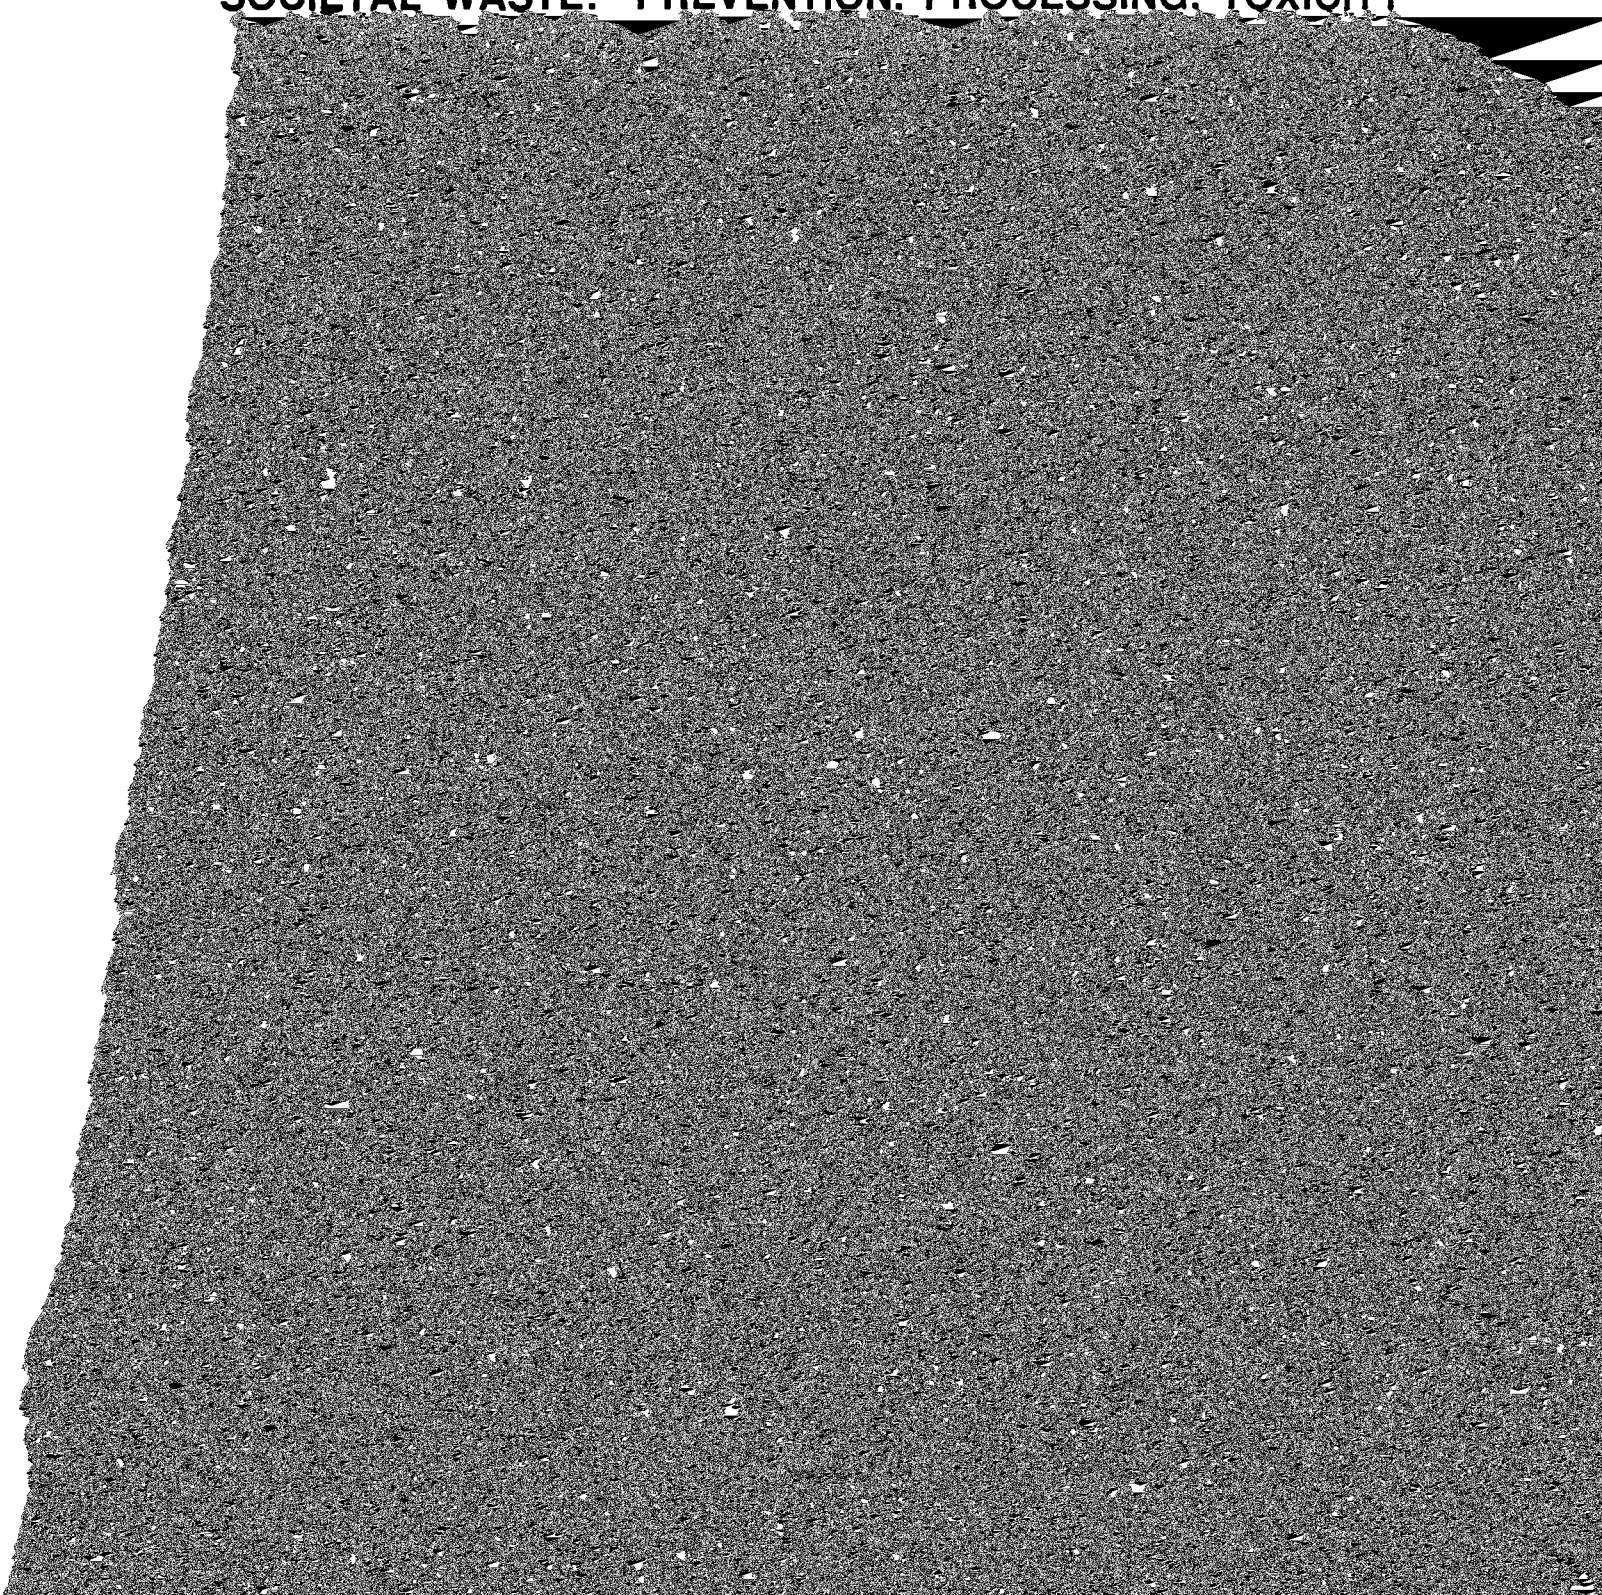
An Introduction to Ergonomics/Human Factors Engineering



TERMINOLOGY

1. ergonomics
2. applications
3. human factors engineers
4. usability
5. utilization
6. analysis
7. design
8. evaluation
9. function
10. form
11. optimize
12. paraplegic
13. hemiplegic
14. quadraplegic

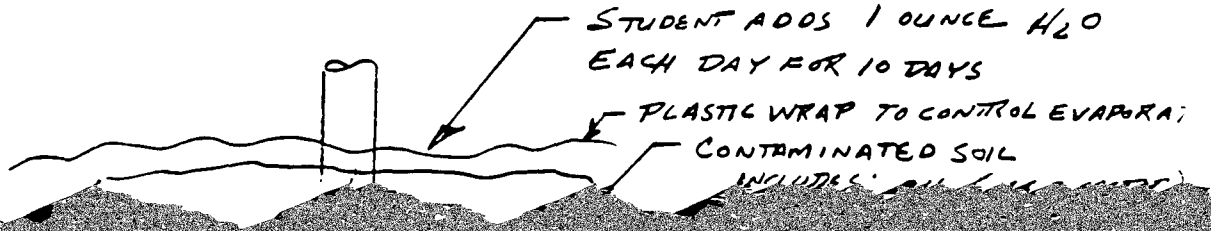
SOCIETAL WASTE: PREVENTION, PROCESSING, TOXICITY



INTRODUCTORY STATEMENT

This unit of instruction contains model lesson plans and activities to focus on the subject

MODEL LANDFILL



WASTE TREATMENT DATA SHEET

STUDENT'S NAME

DAILY LESSON PLAN

Topic

Processing Societal Waste: Biodegradation, Landfill, Incineration,

Incineration -- the burning of waste products in an incinerator.

1. Municipal applications - garbage, medical products and by-products

Summary Questions

1. Describe two methods of safety dealing with waste products produced by society.
2. How is the incapsulation method different from the landfill method in dealing with waste products?
3. What is the role of microorganism in biodegradation?

Assignments

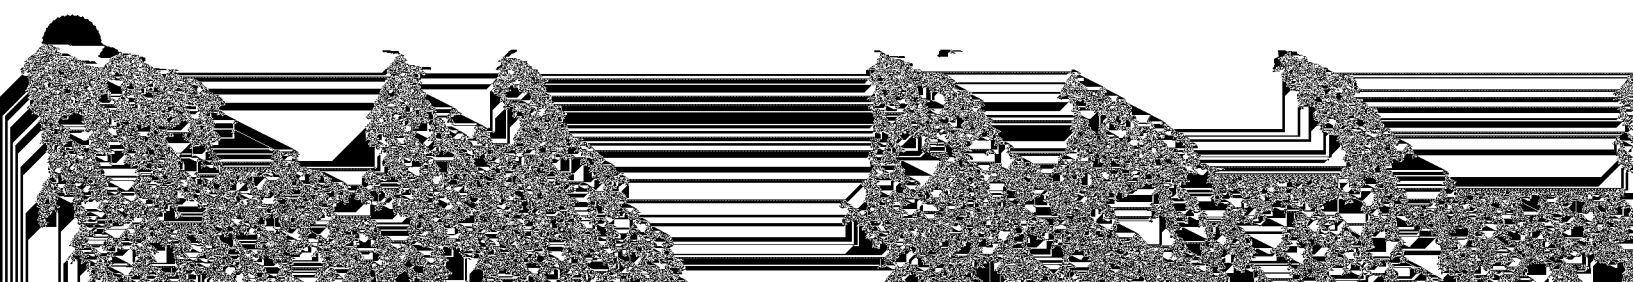
None

Materials Needed

- sandpaper
- water containers
- coffee filter
- diagrams

Outside References

Hazardous Materials Control periodical; HMCRI, P. O. Box 8905, Boulder, CO 80328-8905.



Career Awareness

Environmental Technology

ATORY SECTION

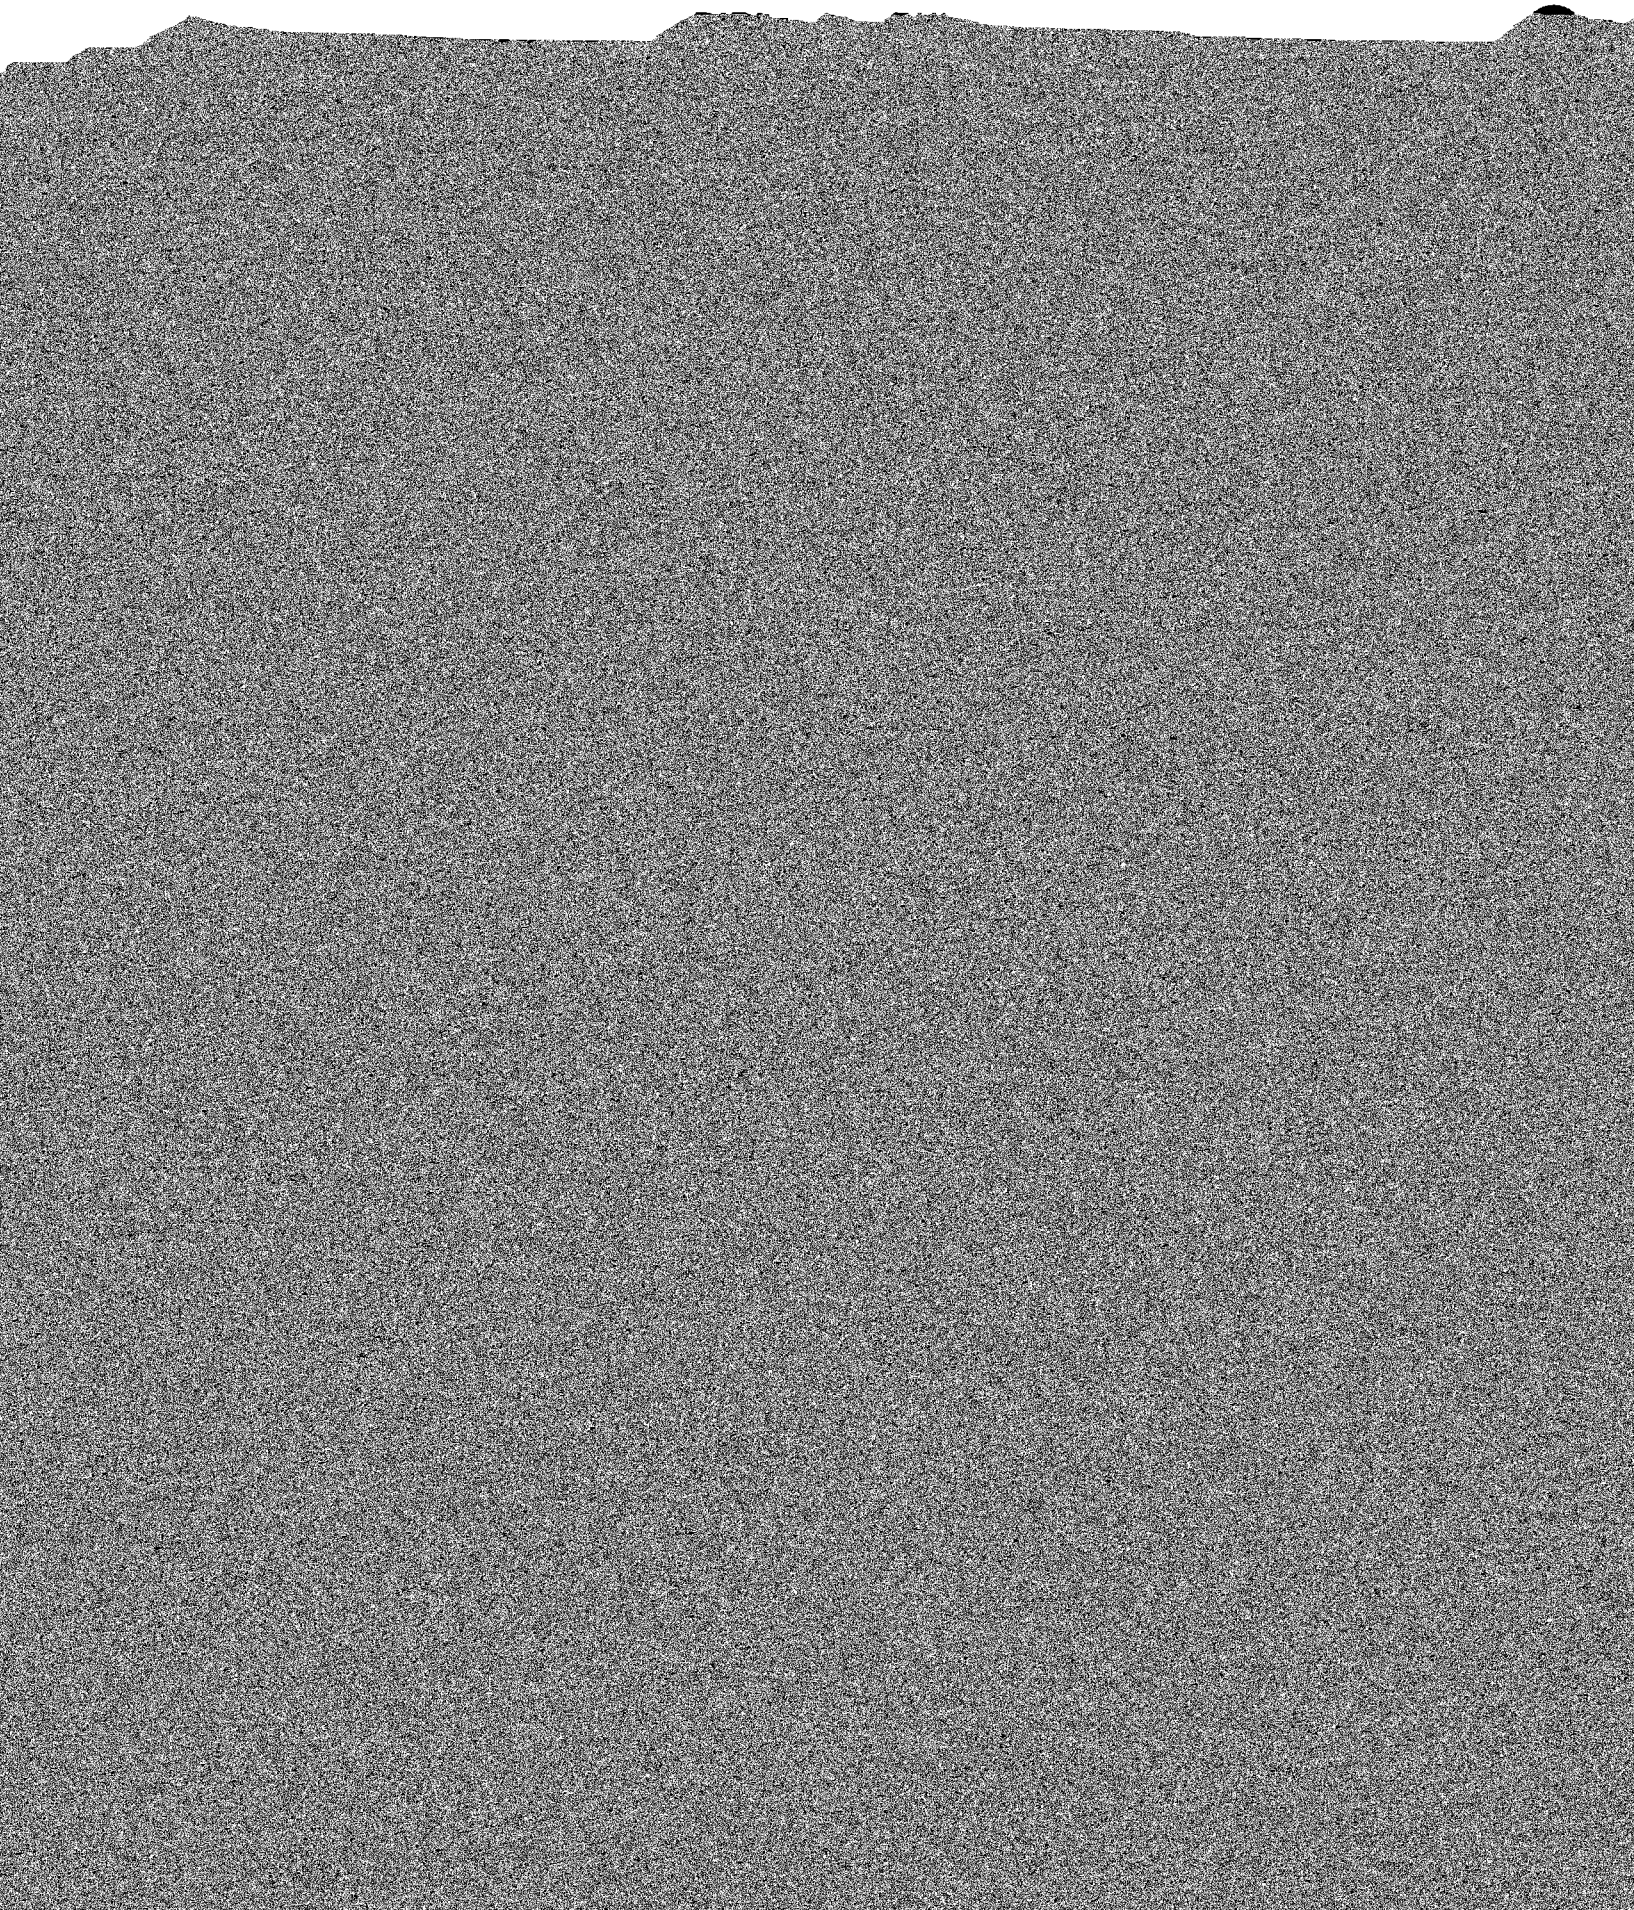
REQUIREMENTS

REQUIREMENTS AND PLUSSES

HOW DO I BECOME ONE?

Technician	**2 yrs. College** **4 yrs. College**
Bachelors	**4 yrs. College**
Masters	**4 yrs. College + 2 yrs. Specialty**
PhD	**4 yrs. College + 4 yrs. Specialty**

HOW IS IT?



6. Stages of growth.
7. Advantages and disadvantages of tissue culture.

DAILY LESSON PLAN

Assignments

Find a reference to tissue culture or animal cloning as it is taking place currently in society.

Read pages 18 - 22 of *Cloning and Genetic Engineering: Social and Legal Implications*. Prepare

DAILY LESSON PLAN

Topic

Plant Tissue Culture Stage III (Rooting Phase)

Syllabus Connections

T-3 TLA Plants with One Parent
T-5 How Technology Affects People and the Environment
T-6 Choosing Appropriate Resources for Technological Systems

CAREER INFORMATION SHEET

Career Title:

Biological Sciences/Biotechnology

Description of Career Responsibilities

The biological sciences are concerned with research in the reproduction, growth and development, structure, life processes, behavior, and classification of living organisms. Also

In vitro	Literally, "in glass," e.g., a test tube.
In vitro	Propagation of plants through tissue culture propagation methods.
Medical asepsis	Rendering an object clean, e.g., handwashing.
Microorganisms	Microscopic living bodies not seen by the naked eye.
