Converting CLASS™ Scores to Performance Ratings

Teacher: _____

School Year: _____

Observer: _____

Center/School: _____

Enter the Domain Average for each domain in the boxes below. Divide by 3 to get the Overall Average.

$$\left(\text{Emotional Support Domain Average} \;\Box\; + \;\text{Classroom Organization Domain Average} \;\Box\; + \;\text{Instructional Support Domain Average} \;\Box\; \right) \div 3 = \;\text{Overall Average} \;\Box$$

Overall Average	Performance Rating Category	Check One
5.00 - 7.00	**Highly Effective** The observations found strong evidence of effective interactions	☐
